

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Raiffeisen International Bond Fund of Funds "E" Series (ISIN: HU0000705983)

Raiffeisen International Bond Fund of Funds "F" Series (ISIN: HU0000709399)

Fund Manager: Raiffeisen Befektetési Alapkezelő Zrt., a member of the Raiffeisen Bank Group

Objectives and investment policy

The objective of Raiffeisen International Bond Fund of Funds is to achieve maximum capital growth while investing the bulk of the fund into government bonds and investment funds, which also invests into different kind of bonds.

The fund manager can invest into deposits, government bonds, other interest-bearing instruments, derivative instruments, investment funds and other collective investment securities. The selected collective investment securities have an extensive focus, geographically the widest. These securities can invest into government bonds issued by developed and emerging countries, corporate bonds, inflation linked and other bonds as well as other money market instruments.

The units of the fund may be purchased and redeemed on any trading day. All working days are trading days except for those that are designated by the distributor as trading holidays – in

accordance with the statutory provisions – or on which trading is suspended due to extraordinary circumstances.

Derivative instruments can be used for hedging purposes only (with a view to reducing risks).

The fund primarily invests in EUR denominated instruments, but the currency exposure of the underlying investment funds may be diverse.

The Raiffeisen International Bond Fund of Funds "E" and "F" series can be purchased in EUR. The fund is a reinvesting fund, meaning that it reinvests the income it generates.

This form of investment is best suited to investors with a middling risk appetite, who have an average risk-bearing capacity.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 3 years.

Risk and reward profile

- In the wake of the modification of the fund's investment policy in August 2017, some of the historical data used for calculating the synthetic indicator, which serves as the basis of the above-mentioned risk rating, is, in accordance with the statutory provisions, based on the performance of an artificial reference index.
- The classification of the fund under category 4 based on the risk/reward profile is attributable to the fact that a major part of the fund's assets are invested in a wide range of interest-bearing instruments.
- The past data used for the calculations are not necessarily reliable indicators of the fund's future risk profile.
- The designated risk/reward profile is not guaranteed to remain unchanged, and the categorisation of the fund may shift over time.
- Not even the lowest category can guarantee a risk free investment.

The following are the risks that are not taken into account when assigning the risk category, but that are of significance in terms

of the fund:

Credit risk: Some of the fund's assets are invested in bonds and/or money market instruments (directly or in the form of credit derivatives). There is a risk that the issuers may become insolvent (or that their credit quality deteriorates), and that these bonds and/or money market instruments (or credit derivatives) lose their value in part or in full.

Liquidity risk: There is a risk that a given position cannot be sold in time at an adequate price. This risk may lead to the suspension of redemptions of the investment fund units.

Counterparty risk: The fund concludes transactions with various contractual counterparties. There is a risk that these contractual counterparties do not satisfy the fund's requests owing to, for example, insolvency.

Operational risk: There is a risk of loss caused by a disturbance in internal procedures/systems or by external events (for example, natural disasters). Safekeeping carries a risk of loss in respect of the fund's assets that may be caused by the insolvency of the custodian or sub-custodian or the violation or abuse of its obligation to act prudently.

Concentration Risk: The fund may hold more than 20% of its assets in investment funds listed in the prospectus under permission of Magyar Nemzeti Bank, which means any operational risk events related to the issuer may affect greatly the fund's unit price and liquidity.

Charges

The fees paid to the fund serve to cover the costs of the fund's operation and include the costs of marketing and distribution. These charges reduce the potential growth of the investment in the fund.

One-off charges taken before or after you invest

Entry charge	maximum 3%
Exit charge	maximum 4%
Surrender fee	2%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charge	1.57%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

The entry and exit fees indicated are the maximum chargeable percentage values. Instead of the percentage fee, a fixed fee

may be charged, which is equal to maximum EUR 30 in the case of entry and exit charges alike. In certain cases the fee may be lower than this; please ask for your financial advisor's assistance in this matter! A surrender fee may be charged upon the redemption of the investment fund units, in the cases specified in the management regulations.

The data regarding ongoing charge is based on the last year's expenses, for the year ending in 2017. 12., and the value of this charge may vary from year to year. The ongoing charge do not include mandate fees, commissions and transfer charges related to securities trading, except for the entry and exit fees charged when the fund invests in other collective investment securities.

Additional information about fees can be found on pages 66-74 of the fund management regulations at the following link:
