

DCC (Dynamic Currency Conversion) information

Dynamic Currency Conversion (DCC) service is available through Raiffeisen Bank's own ATM network for cash withdrawals initiated with bank cards issued abroad. In that context, currency conversion is carried out by Raiffeisen Bank Zrt. at the exchange rate displayed on the ATM screen. The total fee of conversion is 7%.

The cardholder may choose not to use the DCC service. In that case, currency conversion related to the cash withdrawal is performed by the payment service provider issuing the bank card.
