

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Raiffeisen Yield Premium Derivative Fund "R" Series

(ISIN: HU0000719216)

Fund Manager: Raiffeisen Befektetési Alapkezelő Zrt., a member of the Raiffeisen Bank Group

Objectives and investment policy

The objective of the Raiffeisen Yield Premium Derivative Fund is to achieve yields that are at least 2 percentage points higher than the current money market yield by selecting from a wide range of asset classes while restricting any potential loss in the fund's value. The fund may invest in government securities, deposits, other interest-bearing assets (such as corporate bonds), derivative transactions, the units of other investment funds and in shares. The fund is following a strategy starting from 03 July 2017 that the maximum possible loss of the fund would not exceed 11.63% under the value-at-risk approach. The units of the fund may be purchased and redeemed on any trading day. All working days are trading days except for those that are designated by the distributor as trading holidays – in accordance with the statutory provisions – or on which trading is

suspended due to extraordinary circumstances. Derivative instruments may be used for hedging purposes and, in addition, as a part of the investment strategy. In accordance with the intentions of the fund manager, the leveraged position undertaken by the fund through derivative instruments has a moderate impact on the fund's performance (and on the fluctuation of the unit price). The fund is a reinvesting fund, meaning that it reinvests the income it generates. This form of investment is best suited to investors with a middling risk appetite, who have an average risk-bearing capacity. Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 1 year.

Risk and reward profile

- The indicator that serves as the basis for the above mentioned risk rating is based on the risk measure applicable in the case of absolute return funds. On this basis, the fund was classified under risk category 3.
- The classification of the fund under category 3 based on the risk/reward profile is attributable to the fund manager's endeavour that the fund's investments are selected in a way that the maximum possible loss of the fund would not exceed 11.63% in a year under the value-at-risk approach.
- The past data used for the calculations are not necessarily reliable indicators of the fund's future risk profile.
- The designated risk/reward profile is not guaranteed to remain unchanged, and the categorisation of the fund may shift over time.
- Not even the lowest category can guarantee a risk free investment.

The following are the risks that are not taken into account when assigning the risk category, but that are of significance in terms of the fund:

Credit risk: Some of the fund's assets are invested in bonds

and/or money market instruments (directly or in the form of credit derivatives). There is a risk that the issuers may become insolvent (or that their credit quality deteriorates), and that these bonds and/or money market instruments (or credit derivatives) lose their value in part or in full.

Liquidity risk: There is a risk that a given position cannot be sold in time at an adequate price. This risk may lead to the suspension of redemptions of the investment fund units.

Counterparty risk: The fund concludes transactions with various contractual counterparties. There is a risk that these contractual counterparties do not satisfy the fund's requests owing to, for example, insolvency.

Operational risk: There is a risk of loss caused by a disturbance in internal procedures/systems or by external events (for example, natural disasters). Safekeeping carries a risk of loss in respect of the fund's assets that may be caused by the insolvency of the custodian or sub-custodian or the violation or abuse of its obligation to act prudently.

Risk arising from the use of derivative transactions: The fund may use derivative transactions not only for hedging purposes but also as an active investment tool, as a result of which the risk of fluctuations in the fund's unit price increases.

Model risk: In extreme market conditions changes in the fund's unit price may be higher than projected by the used risk management model.

Charges

The fees paid to the fund serve to cover the costs of the fund's operation and include the costs of marketing and distribution. These charges reduce the potential growth of the investment in the fund.

One-off charges taken before or after you invest

Entry charge	maximum 3%
Exit charge	maximum 4%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charge	0.81%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

The entry and exit fees indicated are the maximum chargeable percentage values. Instead of the percentage fee, a fixed fee

may be charged, which is equal to a maximum of HUF 3,000 in the case of entry and exit charges. In certain cases the fees may be lower than these; please ask your financial advisor's assistance in this matter!

The data regarding ongoing charge is based on the last year's expenses, for the year ending in 2017. 12., and the value of this charge may vary from year to year. The ongoing charge do not include mandate fees, commissions and transfer charges related to securities trading, except for the entry and exit fees charged when the fund invests in other collective investment securities.

Additional information about fees can be found on pages 66-74 of the fund management regulations at the following link:
<https://alapok.raiffeisen.hu/aktualis/tajekoztato>

Past performance

The fund was launched in 2006 but the "R" series of the fund started in September 2017 so reporting past performance is not possible.

Practical information

- The fund's custodian is Raiffeisen Bank Zrt.
- The fund's key investor information (in both English and Hungarian), the prospectus and management regulations, the daily net asset value of the fund, the reports that serve to provide regular information (annual and semi-annual reports, monthly portfolio reports) as well as the official announcements on the fund (in Hungarian) may be viewed and/or obtained free of charge at the place of distribution and at the fund manager's registered office, as well as at the fund's publication site. Prior to making an investment decision, please review the documents related to the fund.
- The fund's publication site: the fund manager's website (alapok.raiffeisen.hu), as well as the www.kozzetetelek.hu website.
